

HOW TO SET UP YOUR PHONE

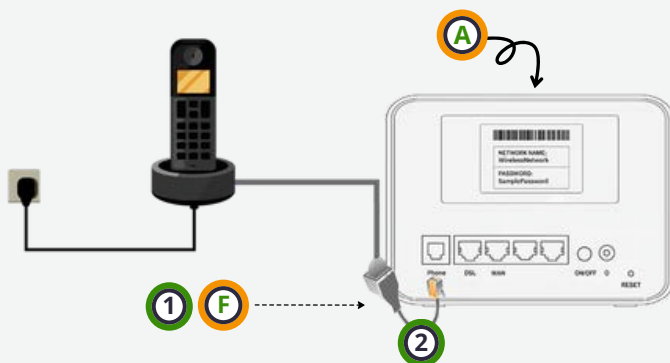

Begin with the router setup (see overleaf), then move on to this step.

Option 1: Standard connection

- 1 Plug your phone cable into the "Phone 1" port on the back of your router (A) (usually green and on the far left). If there are multiple ports, always use the first one.

Option 2: Using a handset with a BT Phone Socket

- 1 Plug your phone cable into the VoIP adapter cable (F).
- 2 Plug the adapter into the "Phone 1" port on the back of your router (A) (usually green port on the far left).
